What is this product?

Type

The product is a share class of the Sub-fund Franklin MSCI World Catholic Principles UCITS ETF (the "Fund") which is part of the Franklin Templeton ICAV (the "Umbrella Fund"), an Irish collective asset-management vehicle constituted as an umbrella fund with segregated liability between Sub-Funds with registration number C167746 and authorised by the Central Bank of Ireland pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011.

Term

The Fund has no maturity date. The Fund could be closed under the conditions laid down in the current prospectus of the Fund.

Objectives

Investment Objective

The Fund aims to provide exposure to large and mid-capitalisation stocks issued by companies that are considered to be environmentally and socially responsible in developed market countries globally.

Investment Policy

The Fund is classified as Article 8 under the EU Sustainable Finance Disclosure Regulation. The Fund seeks to track the performance of the MSCI World Select Catholic Principles ESG Universal and Low Carbon Index -NR (the "Index") as closely as possible, regardless of whether the Index level rises or falls, while seeking to minimise as far as possible the tracking error between the Fund's performance and that of the Index. The Index is based on the MSCI World Index (the "Parent Index") which is comprised of large and mid-cap stocks across a range of developed market countries.

The Index aims to represent the performance of companies that have lower carbon exposure and higher Environmental, Social and Governance ("ESG") performance relative to the Parent Index. The Index is a systematic, rules-based proprietary index that is owned and calculated by the Index Provider. It is comprised of approximately 800 stocks selected from the Parent Index, which is comprised of approximately 1500 stocks. The Index uses MSCI ESG ratings to identify companies that have demonstrated an ability to manage their ESG risks and opportunities. The Index also excludes companies that are involved in controversial businesses or that are considered to have negative environmental or social impacts. It is currently anticipated that the tracking error of the Fund will be in the range of 0.5% under normal market conditions, where the tracking error is defined as the standard deviation of the delivered excess returns over an annual period.

Additionally, companies must have a minimum of a 'BB' ESG rating from MSCI ESG Ratings to be eligible for the Index.

The securities in which the Fund invests will be primarily listed or traded on recognised markets in Europe in accordance with the limits set out in the UCITS Regulations.

The Fund may use derivatives for efficient portfolio management purposes only.

The Investment Manager will aim to replicate the Index by holding all of the Index securities in a similar proportion to their weighting in the Index. However, in certain, limited circumstances, where full replication of the Index is not reasonably practical (for example as a result of the illiquidity or unavailability of certain securities within the Index) or possible, the Fund may only hold a sub-set of the index securities or invest in instruments that are not included in the Index but which the investment manager believes will help the Fund replicate the Index. Although the Index is generally well diversified, because of the market it reflects it contains constituents issued by the same body that may represent more than 10% of the Index.

Share Class Policy

For accumulation shares, income from investments is reinvested in the Fund and reflected in the price of shares.

Processing of subscription and redemption orders

The Fund's shares are listed and traded on one or more stock exchanges. In normal circumstances, only authorised participants (e.g. select financial institutions) may deal in shares directly with the Fund. Other investors can deal in shares daily through a broker on stock exchange(s) on which the shares are traded.

Intended retail investor

The Fund may appeal to investors who want to gain exposure to large and mid-capitalisation stocks issued by companies that are considered to be environmentally and socially responsible in developed market countries globally and who are willing to hold their investment over the medium to long term, for a minimum period of 3 to 5 years. The Fund may be suitable for investors who do not have specific knowledge and/or experience of financial markets and who understand that they may not get back the full amount invested in the Fund.

Depositary

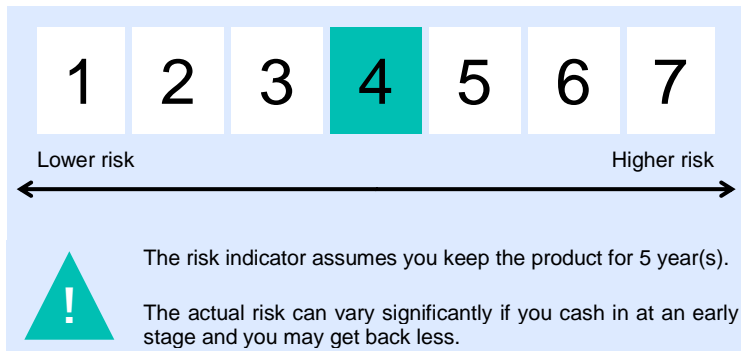

State Street Custodial Services (Ireland) Limited.

What are the risks and what could I get in return?

Risk Indicator

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets.

We have classified this product as 4 out of 7, which is a medium risk class. This rates the potential losses from future performance at a medium level, and poor market conditions could impact the capacity to pay you.

Be aware of currency risk. In some circumstances, you may receive payment in a different currency, so that the final return you get may depend on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.

Other risks materially relevant to the product not included in the summary risk indicator:

- Index Related risk
- Secondary Market Trading risk

For a full discussion of all the risks applicable to this Fund, please refer to the "Investment Risk" section of the Fund supplement.

This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and the suitable benchmark over the last 10 years. Markets could develop very differently in the future.

Recommended holding period:

5 years

Example Investment:

10 000 USD

If you exit after 1 year If you exit after 5 years

What happens if Franklin Templeton International Services S.à r.l. is unable to pay out?

Franklin Templeton International Services S.à r.l. ("FTIS") is the management company of the Fund, but the assets are held separately from FTIS by the depositary. State Street Custodial Services (Ireland) Limited, as the appointed depositary of the Fund, is liable to the Fund or its shareholders for any loss of financial instruments held in custody by it or its delegates (cash could however be lost in case of default of the depositary or its delegates).

There is no compensation or guarantee scheme protecting you from a default of the Fund's depositary.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over Time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- USD 10 000 is invested

If you exit after 1 year

If you exit after 5 years

Total costs	35 USD	280 USD
Annual cost impact (*)	0.4%	0.4% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 12.5% before costs and 12.1% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Please note that the figures shown here do not include any additional fees that may be charged by your distributor, advisor or any insurance wrapper in which the fund may be placed.

Composition of Costs

How long should I hold it and can I take money out early?

Recommended holding period: 5 year(s)

This Fund has no minimum required holding period. We consider that the 5 year recommended holding period is appropriate because the Fund is designed for long-term investment. You may sell your shares on any dealing day. The value of your investments may go down as well as up irrespective of the period you are holding your investments, depending on such factors as the performance of the Fund, movements in stock and bond prices, and conditions in financial markets generally. Please contact your broker, financial adviser or distributor for information on any costs and charges relating to the sale of the shares.

How can I complain?

Investors who would like to receive the procedures relating to complaints handling or wish to make a complaint about the Fund, the operation of FTIS or the person advising on or selling the Fund, should go on the website www.franklintempleton.lu, contact Franklin Templeton International Services, S.à r.l., 8A, rue Albert Borschette L-1246 Luxembourg, or send an e-mail to the client service department at efteamta@statestreet.com & kure_transaction_monitoring_client_communication@statestreet.com.
