IE000YK1T074

a share class of JPMorgan ETFs (Ireland) ICAV – Global High Yield Corporate Bond Multi-Factor Active UCITS ETF
a sub-fund of JPMorgan ETFs (Ireland) ICAV

For more information on this product, please refer to www.jpmorganassetmanagement.lu or call +(352) 3410 3060

The Commission de Surveillance du Secteur Financier (CSSF) is responsible for supervising the manufacturer, JPMorgan Asset Management (Europe) S.à.r.l., (a member of JPMorgan Chase & Co.) in relation to this Key Information Document.

The Sub-Fund is authorised in Ireland and regulated by the Central Bank of Ireland ("CBI").

THIS DOCUMENT WAS PRODUCED ON 17 APRIL 2025

What is this product?

Type

This product is a UCITS exchange traded fund or "UCITS ETF". It is a sub-fund of JPMorgan ETFs (Ireland) ICAV, an Irish collective asset-management vehicle constituted as an umbrella fund with segregated liability between its sub-funds and authorised by the CBI pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

Objectives, Process and Policies

Objective The objective of the Sub-Fund is to achieve a long-term return in excess of the Benchmark by actively investing primarily in a portfolio of below investment grade corporate debt securities, globally.

Share Class Benchmark ICE BofA Global High Yield Index

Investment Policy The Sub-Fund pursues and actively-managed investment strategy.

The Sub-Fund aims to invest at least 67% of its assets (excluding assets held for ancillary liquidity purposes) in below investment grade corporate debt securities. Issuers of these securities may be located in any country, including emerging markets.

The Sub-Fund systematically includes ESG analysis in its investment decisions on at least 75% of non-investment grade and emerging market securities purchased. Pursuant to the Sub-Fund's ESG analysis, at least 51% of the Sub-Fund's Net Assets Value is invested in issuers with positive environmental and/or social characteristics that follow good governance practices, as measured through the Investment Manager's proprietary ESG scoring methodology and/or third party data. The Sub-Fund promotes environmental and/or social characteristics. Further details on the ESG analysis applied are provided below.

The Sub-Fund invests at least 10% of its Net Asset Value in Sustainable Investments, as defined under SFDR, contributing to environmental or social objectives.

The Investment Manager evaluates and applies values and norms based screening to implement exclusions on certain industries and issuers based on specific ESG criteria and/or minimum standards of business practice based on international norms. To support this screening, the Investment Manager relies on third party provider(s) who identify an issuer's participation in or the revenue which they derive from activities that are inconsistent with the values and norms based screens. The list of screens applied that may result in exclusions can be found on the Website (www.jpmorganassetmanagement.ie).

The Investment Manager aims to outperform the Benchmark over the long-term by investing in below investment grade corporate debt securities globally which display certain factor characteristics more strongly when compared to their peer group (i.e. other corporate bonds in the same market sector, denominated in the same currency and with similar creditworthiness). Factors are characteristics that describe the risk and return profile of securities from which investors expect to achieve above average returns over time, through assuming a particular risk or taking advantage of a behavioural bias.

The Investment Manager selects securities by applying a quantitative security selection process that uses multiple factors, referred to as "multi-factor". This process involves selecting below investment grade corporate debt securities issued globally according to an overall multi-factor score derived from equally weighting the three factors described below:

- Value — the tendency of securities trading at a wider spread relative to their fundamental characteristics (such as default probability) to

generate more attractive returns over the long term.

- Momentum — the tendency of securities which have exhibited higher returns to continue to exhibit more attractive returns relative to their volatility.

- Quality — the tendency of securities of financially-stable entities (based on measures of their solvency or profitability) to generate more attractive returns relative to their volatility over the long term. The Sub-Fund will seek to outperform the Benchmark over the long-term. The Benchmark consists of below investment grade, fixed rate corporate debt securities, such as bonds and notes, of varying maturity, issued globally ("Benchmark Securities"). The Benchmark has been included as a point of reference against which the performance of the Sub-Fund may be measured. The Sub-Fund will bear a some resemblance to its Benchmark.

The Sub-Fund will not seek to track the performance of or replicate the Benchmark, rather the Sub-Fund will hold a portfolio of below investment grade corporate debt securities (which may include but will not be limited to Benchmark Securities) which are actively selected and managed with the aim of delivering an investment performance which exceeds that of the Benchmark over the long-term.

The Investment Manager systematically considers ESG issues in its investment analysis and investment decisions with the goals of managing risk and improving long-term returns. The Investment Manager considers third-party ESG scores by taking into account the trade-off between an issuer's ESG score and its multi-factor score) in its systematic selection process. Similar to the multi-factor process described below, the Investment Manager will evaluate ESG scores on a peer-adjusted basis. These determinations may not be conclusive and securities of issuers which may be negatively impacted by such issues may be purchased and retained by the Sub-Fund while the Sub-Fund may divest or not invest in securities of issuers which may be positively impacted by such issues where the Investment Manager believes that this is in the best interests of the Sub-Fund on the basis of the other elements of the investment policy.

The Sub-Fund may invest in assets denominated in any currency and currency exposure may be managed by reference to the Benchmark. The Sub-Fund may, for efficient portfolio management purposes, use financial derivative instruments.

USD is the base currency of the Sub-Fund.

The Sub-Fund will publicly disclose its complete holdings on a daily basis. Details of the Sub-Fund's holdings and full disclosure policy may be found on www.jpmorganassetmanagement.ie.

This Share Class seeks to minimise the effect of currency fluctuations between the currency of certain (but not necessarily all) assets of the Sub-Fund and the Reference Currency of this Share Class (EUR).

Redemption and Dealing Shares of the Sub-Fund are traded on one or more stock exchanges. Certain market makers and brokers may subscribe and redeem Shares directly with JPMorgan ETFs (Ireland) ICAV, and are referred to as "Authorised Participants". Other investors who are not Authorised Participants can purchase and sell Shares daily on a recognised stock exchange or over-the-counter.

Distribution Policy This Share Class will normally pay dividends semi-annually.

SFDR Classification Article 8

Intended retail investor

This product is intended for investors who plan to stay invested for at least 5 years.

- Investors should understand the risks involved, including the risk of losing all capital invested and must evaluate the Sub-Fund

All data is sourced by J.P. Morgan Asset Management and is correct as at the date of this commentary unless otherwise stated.

objective and risks in terms of whether they are consistent with their own investment goals and risk tolerances. The Sub-Fund is not intended as a complete investment plan.

- The Sub-Fund is aimed at investors seeking to achieve a long-term return in excess of the Benchmark by actively investing primarily in a portfolio of global below investment grade corporate bonds, with positive environmental and/or social characteristics that follow good governance practices and values and norms-based screening of its investment universe.
- Typical investors in the Sub-Fund are expected to be those who want exposure to the global below investment grade corporate bond market through an active multi-factor investment strategy who are prepared to accept the risks associated with an investment of this type, including the volatility associated with such a market.

Term This product does not have a fixed maturity date and may be liquidated in certain circumstances, as further detailed in the Prospectus.

Practical information

Depository The fund depository is Brown Brothers Harriman Trustee Services (Ireland) Limited.

What are the risks and what could I get in return?

Risks

Lower risk

Higher risk

The risk indicator assumes you keep the product for 5 year(s).

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

Legal Information JPMorgan Asset Management (Europe) S.à r.l. may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Prospectus.

The Sub-Fund is sub-fund of JPMorgan ETFs (Ireland) ICAV, an Irish collective asset-management vehicle with segregated liability between sub-funds. JPMorgan ETFs (Ireland) ICAV consists of separate sub-funds, each of which issues one or more Share Classes. This document is prepared for a specific Share Class. The Prospectus and annual and semi-annual financial reports are prepared for JPMorgan ETFs (Ireland) ICAV.

Switching Switching of Shares from one Sub-Fund into Shares in another Sub-Fund is not permitted. Switching of Shares from one Share Class into another Share Class within the same Sub-Fund is also not permitted to investors trading on stock exchanges but may be available to the Authorised Participants. Further information can be found in the Prospectus.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you. The risk of the product may be significantly higher if held for less than the recommended holding period.

This product does not include any protection from future market performance so you could lose some or all of your investment. If we are not able to pay you what is owed, you could lose your entire investment.

Beside the risks included in the risk indicator, other risks materially relevant for the product may affect its performance. Please refer to the relevant supplement, available free of charge at www.jpmorganassetmanagement.lu.

Performance scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Unfavourable: this type of scenario occurred for an investment between 2021 and 2025.

Moderate: this type of scenario occurred for an investment between 2019 and 2024.

Favourable: this type of scenario occurred for an investment between 2016 and 2021.

Recommended holding period		5 years	
Example Investment		€ 10,000	
Scenarios		if you exit after 1 year	if you exit after 5 years (recommended holding period)
Minimum return	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs Average return each year	€ 8,080 -19.2%	€ 7,600 -5.3%
Unfavourable	What you might get back after costs Average return each year	€ 8,330 -16.7%	€ 9,510 -1.0%
Moderate	What you might get back after costs Average return each year	€ 10,560 5.6%	€ 11,140 2.2%
Favourable	What you might get back after costs Average return each year	€ 12,350 23.5%	€ 15,600 9.3%

What happens if JPMorgan Asset Management (Europe) S.à.r.l. is unable to pay out?

JPMorgan Asset Management (Europe) S.à r.l. is responsible for administration and management of the Sub-Fund and does not hold assets of the Sub-Fund (assets that can be held by a depository are, in line with applicable regulations, held with a depository in its custody network). JPMorgan Asset Management (Europe) S.à r.l., as

the manufacturer of this product has no obligation to pay out since the product design does not contemplate any such payment being made. However, investors may suffer loss if the Sub-Fund or the depository is unable to pay out. There is no compensation or guarantee scheme in place which may offset, all or any of, your loss.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- in the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- € 10,000 is invested.

Example Investment € 10,000	if you exit after 1 year	if you exit after 5 years (recommended holding period)
Total Costs	€ 96	€ 533
Annual cost impact*	1.0%	1.0%

(* This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 2.2% before costs and 2.2% after costs.

Composition of costs

One-off costs upon entry or exit		Annual cost impact if you exit after 1 year
Entry costs	0.00% , we do not charge an entry fee.	0 EUR
Exit costs	0.00% , we do not charge an exit fee for this product, but the person selling you the product may do so.	0 EUR
Ongoing costs taken each year		
Management fees and other administrative or operating costs	0.35% of the value of your investment per year. This is an estimate based on actual costs over the last year.	35 EUR
Transaction costs	0.61% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	61 EUR
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	0 EUR

How long should I hold it and can I take money out early?**Recommended holding period: 5 year(s)**

This product is designed for longer term investments due to the potential volatility of its performance; you should be prepared to stay invested for at least 5 years. You can redeem your investment without

penalty at any time during this period however your return may be negatively impacted by the volatility of its performance. Redemptions are possible on every Dealing Day, with proceeds settled within 2 business days.
