JPMorgan ETFs (Ireland) ICAV

ISIN: IE000TD3TI26

JPM US Value Equity Active UCITS ETF - USD (acc)

a Share Class of JPMorgan ETFs (Ireland) ICAV – US Value Equity Active UCITS ETF. The management company is JPMorgan Asset Management (Europe) S.à r.l.

Objectives and Investment Policy

Investment Objective: The Sub-Fund aims to achieve a long-term return in excess of Russell 1000 Value Index (Net Total Return of 30% dividend withholding tax) ("the Benchmark") by actively investing primarily in a value style-biased portfolio of US Companies.

Investment Policy: The Sub-Fund pursues an actively-managed investment strategy.

The Sub-Fund aims to invest at least 67% of its assets (excluding assets held for ancillary liquidity purposes) in equity securities issued primarily by companies that are domiciled in, or carrying out the main part of their economic activity in, the US.

The Sub-Fund systematically includes environmental, social and governance ("ESG") analysis in its investment decisions on at least 90% of securities purchased. Pursuant to the Sub-Fund's ESG analysis, at least 51% of the Sub-Fund's Net Asset Value is invested in companies with positive environmental and/or social characteristics that follow good governance practices, as measured through the Investment Manager's proprietary ESG scoring methodology and/or third party data.

The Sub-Fund invests at least 20% of its Net Asset Value in Sustainable Investments, as defined under SFDR, contributing to environmental or social objectives.

The Investment Manager evaluates and applies values and norms based screening to implement exclusions on certain industries and issuers based on specific ESG criteria and/or minimum standards of business practice based on international norms. To support this screening, the Investment Manager relies on third party provider(s) who identify an issuer's participation in or the revenue which they derive from activities that are inconsistent with the values and norms based screens. The list of screens applied that may result in exclusions can be found on the Website (www.jpmorganassetmanagement.ie).

The Sub-Fund will seek to outperform the Benchmark over the long-term. The Benchmark consists of large capitalisation stocks issued by U.S. companies ("Benchmark Securities").

The Benchmark has been included as a point of reference against which the performance of the Sub-Fund may be measured. The degree

to which the Sub-Fund may resemble the composition and risk characteristics of the benchmark will vary over time and its performance may be meaningfully different.

The Sub-Fund will not seek to track the performance of or replicate the Benchmark, rather the Sub-Fund will hold a portfolio of equity securities (which may include but will not be limited to the Benchmark Securities) which is actively selected and managed with the aim of delivering an investment performance which exceeds that of the Benchmark over the long-term.

In order to seek to achieve this, the Investment Manager will invest in companies across all capitalisation sectors which the Investment Manager believes to be undervalued relative to their intrinsic value at the time of purchase, but which have the potential to increase in value.

The Sub-Fund may, for efficient portfolio management purposes, use financial derivative instruments.

The Sub-Fund seeks to assess the impact of ESG factors on the cash flows of many companies in which it may invest, to identify issuers that it believes will be negatively impacted by such factors relative to other issuers. The Investment Manager focuses on key risk factors, including, accounting and tax policies, disclosure and investor communications, shareholder rights, remuneration and social and environmental factors, seeking to identify such negative outliers.

USD is the base currency of the Sub-Fund.

Redemption and Dealing: Shares of the Sub-Fund are traded on one or more stock exchanges. Certain market makers and brokers may subscribe and redeem Shares directly with JPMorgan ETFs (Ireland) ICAV, and are referred to as "Authorised Participants". Other investors who are not Authorised Participants can purchase and sell Shares daily on a recognised stock exchange or over-the-counter.

Benchmark: Russell 1000 Value Index (Net Total Return of 30% dividend withholding tax).

Distribution Policy: This Share Class will not pay dividends.

Risk and Reward Profile

The above rating is based on the historic volatility of the simulated Net Asset Value of this Share Class over the last five years and may not be a reliable indication of the future risk profile of this Share Class.

The risk and reward category shown above is not guaranteed to remain unchanged and may change over time.

A Share Class with the lowest risk rating does not mean a risk-free investment.

Why is this Share Class in this category? This Share Class is classified in category 6 because its simulated Net Asset Value has shown high fluctuations historically.

OTHER MATERIAL RISKS

- The value of your investment may fall as well as rise and you may get back less than you originally invested.
- The value of equity securities may go down as well as up in response to the performance of individual companies and general market conditions, sometimes rapidly or unpredictably. If a company goes through bankruptcy or a similar financial restructuring, its shares in issue typically lose most or all of their value.
- REITs and real estate related investments are subject to the risks associated with the ownership of real estate which may expose the relevant Sub-Fund to increased liquidity risk, price volatility and losses due to changes in economic conditions and interest rates.
- Value stocks may decrease in price or may not increase in price as anticipated by the Investment Manager if other investors fail to recognise the company's value or the factors that the Investment Manager believes will cause the stock price to increase do not occur.
- Exclusion of companies that do not meet certain ESG criteria from the Sub-Fund's investment universe may cause the Sub-Fund to perform differently compared to similar funds that do not have such a policy.
- The Sub-Fund seeks to provide a return above the Benchmark; however the Sub-Fund may underperform the Benchmark.
- Further information about risks can be found in the "Risk Information" section of the Prospectus.
