## First Trust SMID Rising Dividend Achievers UCITS ETF

A sub-fund of First Trust Global Funds plc (the "Company")

First Trust Global Portfolios Management Limited is the manager of the Company (the "Manager")

ISIN: IE000YVOQ2A3

Share class: Class B USD DIST

### Objective and Investment Policy

**Objective:** The Fund seeks investment results that correspond generally to the price and yield, before the Fund's fees and expenses, of the Nasdaq US Small Mid Cap Rising Dividend Achievers TM Index (the "Index").

**Investment Policy:** The Fund invests primarily in equity securities that are included in the Index. The Fund attempts to replicate, before fees and expenses, the performance of the Index.

The Investment Manager will seek to do this by trying to replicate the Index by holding in similar proportions the equity securities in the Index. This Fund may, where direct investment in a constituent of the Index is not possible, invest in depository receipts to gain exposure to the security and may also invest in money market instruments, short-term instruments and other eligible Funds. The Investment

Manager will regularly monitor how closely the Fund tracks the Index. It is expected that the level of tracking error will be 0-2% in normal market conditions.

The Fund is passively managed and has an index replicating objective.

For details of the exact composition of the Index, please refer to the following website: <https://indexes.nasdaqpmx.com/Index/Overview/NQDVSMR>.

**For more information about the investment policy, see "Investment Policy" in the Fund's section on supplement available at [www.ftglobalportfolios.com](http://www.ftglobalportfolios.com).**

It is intended to declare dividends on a quarterly basis.

**Recommendation:** this Fund may not be appropriate for investors who plan to withdraw their money within the short term.

### Risk and Reward Profile

The risk category is based on simulated and historical data and may not be a reliable indicator of the future risk profile of the Fund. The risk category shown is not guaranteed and may change over time.

The indicator is designed to help investors understand the uncertainties for both loss and for growth that may affect their investment. The lowest category does not mean that the investment is risk free.

The Fund is ranked at 7 because funds of this type have experienced high rises and falls in value in the past.

**The following risks are materially relevant to the Fund which may not be adequately captured by the indicator:**

The Fund may not achieve its investment objective and the value of shares in the Fund may fall.

There is no assurance that the Index will continue to be calculated and published on the basis described in the Prospectus. In addition, the Fund's return may not match the return of the Index.

See also the description of the risks applicable to the Fund in "Risk Factors" in the Fund's Prospectus and supplement thereto.
