OSSIAM US MINIMUM VARIANCE ESG NR UCITS ETF (1A (USD) ISIN IE00BHNGHW42) a sub-fund of OSSIAM IRL ICAV (the "ICAV")

Management Company: Ossiam, part of the Natixis group of companies

Objectives and Investment Policy

Investment objective

The investment objective of Ossiam US Minimum Variance ESG NR UCITS ETF (the "Fund") is to replicate, before the Fund's fees and expenses, the performance of the US ESG Minimum Variance Index NR (the "Index"). The Fund is passively managed.

The Index is a total return index (net dividends reinvested) expressed in USD, calculated and published by Solactive AG.

The Index reflects the performance of a dynamic selection of stocks which satisfy Environment, Social and Governance ("ESG") criteria among the most liquid stocks from the Solactive US Large Cap Index (the "Base Index"). The Base Index tracks the performance of about 500 leading large capitalisation companies in major industries in the United States of America. Constituents of the Index will be selected on a monthly basis and weighted according to an optimisation procedure. As such, sector and company exposures in the Index will differ from those of the Base Index.

The anticipated level of tracking error in normal conditions is 0.50%.

For a detailed description of the Index, please see the "Description of the Index" section in the supplement (the "Supplement").

Investment policy

The investment policy of the Fund is to replicate the performance of the Index as closely as possible, regardless of whether the Index level rises or falls, while seeking to minimise as far as possible the tracking error between the Fund's performance and that of the Index.

In order to seek to achieve this investment objective, the Management Company will aim to replicate the Index by holding all or part of the Index Securities in a similar proportion to their weighting in the Index. The Fund may hold only part of the Index Securities where full replication of the Index is not reasonably practical (for example as a result of the non-significant weight or the illiquidity of certain securities within the Index) or where it is not possible to comply with the constraints described under "Index methodology" in the Supplement.

The Fund shall be permanently invested for a minimum of 60% in equities or rights issued by companies having their registered office in OECD countries.

The Reference Currency of the Fund is the US Dollar.

The 1A (USD) Shares are listed for trading on one or more stock exchanges and investors may buy or sell Shares through their usual broker on any trading day of the relevant stock exchange(s) which is also a Dealing Day in Ireland or, through a fund platform. Please contact your broker for additional information.

The 1A (USD) Share Class is an accumulating share class therefore income derived from the Fund is reinvested.

Recommendation: this Fund may not be appropriate for investors who plan to withdraw their money within less than 5 years.
